Dear Valued Customer:

We are writing to inform you of an upcoming adjustment to our water service rates, effective March 1, 2025. This decision was made after careful consideration and is essential to continue providing you with safe, reliable, and high-quality water services.

New Rate Structure:

- Minimum/Base Rate = \$45.00 for 0 - 5,000 gallons
- 5,001 gallons & above = \$8.00 per each additional 1,000 gallons

Reason for the Increase:

Over the past 2 years, we have experienced significant increases in operational costs, including Sikeston BMU rate increases, maintenance costs, and compliance with state and federal regulations. To maintain the level of service you expect and to keep from deficit spending, this rate adjustment is necessary.

Our Commitment to You:

We understand that rate increases can be challenging. Please know that we are committed to transparency and efficiency in our operations. Our goal is to provide you with the best possible service while ensuring the long-term sustainability of our water infrastructure.
